Acknowledgements

Saskatchewan Education and the Saskatchewan Institute of Applied Science and Technology (SIAST) would like to thank those graduates who responded to the Graduate Employment Survey. Appreciation is also extended to the many readers of previous years' **Employment Statistics Reports** who provided valuable comments.

Executive Summary

The major findings of the 1991 Graduate Employment Survey are as follows:

- **2,272 graduates** from 101 training programs were surveyed. **1,400 responded** to the survey for a **response rate of 62%**.
- **78%** of all respondents were **employed** at the time of the survey; **17%** were **unemployed**, i.e. not employed and looking for work, and **6%** were **not in the labour force**, i.e. not employed and not looking for work.
- **82%** of the employed respondents were in **training related occupations**, i.e. those requiring all or some of the skills gained in their training program. **73%** of those employed in training related occupations were **working full time**, i.e. 30 or more hours per week.
- **66%** of the respondents who were unemployed at the time of the survey **had worked at some time** since completing their training.
- **96%** of all respondents rated their training as **good to excellent**.
- **95%** of employed respondents indicated that their **training had prepared them appropriately** for the job they had obtained.
- **15%** of all respondents were enroled in some form of **further training** at the time of the survey.
- **$1,763/month** was the **average salary** for respondents in full time, training related employment.
- **46%** of respondents in training related employment were working in either **Regina or Saskatoon**.

Introduction

Saskatchewan Education has conducted an annual survey of the provinces's technical and vocational training graduates for a number of years. Beginning with the survey of 1990-91 graduates, the Graduate Employment Survey (formerly the Graduate Follow-Up Survey) is now a joint project of Saskatchewan Education and the Saskatchewan Institute of Applied Science and Technology (SIAST). The survey collects data and opinions on a variety of questions related to the graduates' employment status, occupation, industry, location of employment, salary, relationship of training to occupation and general evaluation of training received.

Scope of the Survey

The 1991 Graduate Employment Survey, on which this report is based, collected data on 1990-91 graduates from all SIAST campuses: Kelsey in Saskatoon, Palliser in Moose Jaw, Wascana in Regina and Woodland in Prince Albert and Meadow Lake.

The training programs surveyed included those certificate or diploma programs offered on-campus that lasted twelve weeks or longer. Programs not included in the survey were Apprenticeship, Saskatchewan Skills Extension, Saskatchewan Skills Development, upgrading, employer based or other special programs. Also, new programs that had not yet produced graduates were not included. Most graduates completed their program in the spring and were surveyed six months later in December. There were some differences between programs surveyed this year and those included in the 1990 survey. A description of changes in the programs included in the 1990-91 survey as compared to the 1989-90 survey is contained in Appendix B.

Methodology

SIAST campuses supplied most of the graduate lists for the survey's mailing list. SIAST Central Office mailed each graduate a questionnaire with a covering letter and a postage-paid return envelope. The graduate was asked to complete a four page questionnaire (see Appendix A). Those graduates who had not returned a completed questionnaire within six weeks of the initial mailing were sent the same questionnaire in a second mailing. As well, a telephone follow-up was conducted for programs with less than a 50% response rate.

Completed questionnaires were returned to Saskatchewan Education who recorded and checked the responses and entered them on a computer database.

The complete database was sorted for each of the individual training programs and by five program groupings: Business, Health, Industrial, Service and Technology. The data were then analyzed using a personal computer software program to obtain the information provided in this report.

Response

The Graduate Employment Survey did not use random sample methodology. All program graduates, as defined above, were surveyed and a percentage of this population responded. The results presented here are based on those respondents. It should be noted that these results relate to the respondents' situation at the time of the survey only.

Purpose of the Survey

The **Employment Statistics Report** provides information on training programs which is not readily available elsewhere. It is used by career counsellors and students in selecting programs of study. Those planning future training or studying changes in labour market conditions also find the information useful.

Please note that the survey results presented in this report are only one source of information about SIAST's training programs. They should be considered within the context of a variety of factors that affect graduates' employment and assessment of training.

User's Guide

The Employment Statistics Report presents the major findings of the 1991 Graduate Employment Survey in two sections: Overview of Results and Program Statistics. The Overview of Results summarizes the survey results for all respondents.

The Program Statistics section outlines the survey results for individual training programs. The programs are grouped within the following categories: Business, Health, Industrial, Service and Technology. Each program is reported on a single page that includes the following information:

- program name, SIAST campus;
- response rate;
- employment status;
- employment description;
- overall rating of training;
- five year comparison of full time employment; and
- explanatory notes.

Each of these sections is described in detail below.

Program [1] **Campus** [2]

Number of Graduates 15 [3] Number of Respondents 13 [4] Response Rate 87% [5]

1 The name of the training program.
2 The SIAST campus.
3 The number of graduates surveyed.
4 The number of graduates who returned completed questionnaires. All survey results are based on this population.
5 Percentage of graduates who responded to the survey.

Employment Status (#, % of all respondents) [6]

Training Related Employment: [7]		Training Related Employment	10 (77%) [12]
Full Time	6 (46%) [8]	Non-Training Related Employment	1 (8%) [13]
Part Time	3 (23%) [9]	Total Employed	11 (85%) [14]
Self-Employed	1 (8%) [10]	Unemployed	1 (8%) [15]
Total	10 (77%) [11]	Not in the Labour Force	1 (8%) [16]

6 This section describes the employment status of respondents at the time of the survey.
7 Training related employment refers to respondents employed in an occupation related to their training (i.e. requires or uses some or all of the skills and knowledge acquired in the program).
8 Respondents employed full time in training related occupations.

9 Respondents employed part time, i.e. less than 30 hours per week, in training related occupations.
10 Respondents self-employed in training related occupations.
11 Sum of all respondents in training related employment.
12 Respondents employed in occupations related to their training.
13 Respondents employed in occupations not related to their training.
14 The total of all employed respondents (sum of training related and non-training related).
15 Respondents unemployed at the time of the survey (not employed and looking for work).
16 Respondents not in the labour force (not employed and not looking for work).

Employment Description (#, % of respondents with training related employment)[17]

Occupation[18]	Accountant	4 (40%)	Auditor	4 (40%)
	Accounting Clerk	1 (10%)	Teller	1 (10%)
Industry[19]	Government	4 (40%)	Accounting Firm	3 (30%)
	Manufacturer	1 (10%)	Oil Company	1 (10%)
	Hospital	1 (10%)		
Location[20]	Regina	5 (50%)	Saskatoon	3 (30%)
	Moose Jaw	2 (20%)		

Salary (Monthly - Full Time, Training Related)[21] Average: $1,580[22] Range: $1,200 to $2,500[23]

17 Description of various aspects of employment, i.e. occupation, industry, location, salary, for respondents employed in training related occupations.
18 Occupations of those in training related employment.
19 Industries of the employers of respondents in training related occupations.
20 Location of employment for respondents in training related occupations, based on employer's address and classified using the Saskatchewan Hospital Services Plan (S.H.S.P.) coding system.
21 Gross monthly salary, i.e. before deductions, for those working full time in training related occupations.
22 The average of the reported gross monthly salary for respondents in full time, training related occupations.
23 The range of lowest to highest monthly salaries for respondents in full time, training related employment.

Overall Rating of Training (% of all respondents)[24]

Excellent 20%	Very Good 20%	Good 20%	Poor 20%	Very Poor 20%

24 All respondents were asked to rate the overall quality of their training program using a five-point scale ranging from excellent to very poor. Percentages are based on all responses to this question.

Five Year Comparison (% of all respondents in each year) [25]

Respondents Employed Full Time:	86-87	87-88	88-89	89-90	90-91
Training Related Occupations **26**	58%	64%	56%	77%	62%
All Occupations **27**	74%	81%	83%	81%	71%

25 This section presents information from this year's survey (1990-91), as well as results from the Graduate Follow-Up Survey for the years 1986-87 to 1989-90.

26 Employment rates for respondents employed full time in training related occupations.

27 Employment rates for respondents employed full time in any occupation.

A notes section appears at the bottom of each page. One or more notes may be included to provide further details about the employment statistics or some aspect of the training program which may affect employment. Some examples of the types of notes that may be used are as follows:

Notes

- Caution: Small number of respondents.
- * Represents one respondent.
- 2 respondents employed part time in training related employment were looking for full time employment.
- 3 unemployed respondents had worked since completing the training program.
- 2 respondents were unemployed but scheduled to return to work in the next year.
- Competency based education program.
- Optional/Mandatory co-operative education program.
- This program is subject to seasonal employment demand.
- See User's Guide for explanation of percentages and other information.

Overview of Results

Response Rate

The 1990-91 Graduate Employment Survey was sent to 2,272 graduates from 101 training programs. 1,400 graduates responded for an overall response rate of 62% (see Table 1).

For the purposes of this report, these SIAST programs included in the survey have been grouped into five categories: Business, Health, Industrial, Service and Technology. Within those categories, Business had the highest response rate at 66%. (Please see the Table of Contents for a listing of the programs included in each group.)

Table 1
Response Rate

Program Group	Graduates #	Respondents #	Response Rate %
Business	435	287	66
Health	592	380	64
Industrial	736	412	56
Service	221	133	60
Technology	288	188	65
Overall	2,272	1,400	62%

Employment Status

Of the 1,400 survey respondents, 78% (N=1,090) were employed at the time of the survey (see Table 2). This includes graduates who were employed on a full time, part time or self-employed basis in both training related and other occupations. Health programs had the highest overall employment rate; 85% of those respondents had jobs.

As indicated in Table 2, 17% (N=233) of all respondents were unemployed, i.e. not employed and looking for work, while 6% (N=77) were not in the labour force, i.e. not employed and not looking for work. Among the program groups, respondents from Service programs had the lowest unemployment rate at 10%.

Table 2
Respondents: Employed, Unemployed, or Not In The Labour Force

Program Group	Employed #	Employed %	Unemployed #	Unemployed %	Not In The Labour Force #	Not In The Labour Force %	Respondents #
Business	217	76	50	17	20	7	221
Health	323	85	47	12	10	3	362
Industrial	298	72	97	24	17	4	379
Service	101	76	13	10	19	14	116
Technology	151	80	26	14	11	6	99
Overall	1,090	78%	233	17%	77	6%	1,177

Of the 1,090 respondents employed at the time of the survey, 82% (N=897) were employed in training related occupations, i.e. those that required some or all of the skills gained in the program (see Table 3). Respondents from Health programs had the highest rate of training related employment at 94%.

Those respondents working in non-training related occupations (N=193) identified a lack of available jobs as the major reason for not having obtained training related employment.

Table 3
Training Related and Non-Training Related Employment

Program Group	Training Related Employment #	%	Non-Training Related Employment #	%	Total Employed #
Business	174	80	43	20	217
Health	304	94	19	6	323
Industrial	216	72	82	28	298
Service	83	82	18	18	101
Technology	120	79	31	21	151
Overall	897	82%	193	18%	1,090

Further analysis of respondents employed in training related occupations indicated that overall, 73% (N=658) were employed full time, 25% (N=223) were employed part time and 1% (N=16) were self-employed (see Table 4).

Within program groups, respondents from Technology programs had the highest rate of full time employment in training related occupations at 95% (N=114). 56% (N=172) of Health program respondents in training related occupations were working part time. 5% (N=10) of respondents in Industrial programs were self-employed in a training related occupation.

Table 4
Training Related Employment: Full Time, Part Time, and Self-Employed

Program Group	Full Time #	%	Part Time #	%	Self-Employed #	%	Total Training Related Employed #
Business	159	91	15	9	0	0	174
Health	131	43	172	56	1	1	304
Industrial	194	90	12	5	10	5	216
Service	60	72	20	24	3	4	83
Technology	114	95	4	3	2	2	120
Overall	658	73%	223	25%	16	1%	897

As shown in Table 5, 66% (N=152) of respondents who were unemployed at the time of the survey indicated that they had worked at some time since graduation. 68% (N=46) of those not in the labour force at the time the survey was conducted had worked at some time since completing their program.

Approximately one-fifth of those respondents who were either unemployed or not in the labour force at the time of the survey were scheduled to return to work within the next year.

Table 5
Presently Unemployed or Not In The Labour Force But Who Have Worked Since Graduation

Labour Force Status	Respondents Who Have Worked Since Graduation #	%	Total #
Unemployed	152	66	147
Not In The Labour Force	46	68	68

Of those respondents (N=233) who were unemployed, i.e. looking for work at the time of the survey, all but fifteen explained why they could not find a job. 29% indicated they could not find employment because no jobs were available (see Table 6). 26% attributed their not having a job to their preferred location of employment, while another 24% felt their lack of experience acted as a deterrent to finding work.

Table 6
Unemployed:
Reasons for Being Unemployed

Reason	#	%
No Jobs Available	64	29
No Jobs In Desired Location	56	26
Not Enough Experience	53	24
Require Further Training	12	6
Employment Is Seasonal	8	4
Other Reasons	25	11
Total	218	100%

Of the respondents not in the labour force (N=77), all but five indicated their reasons for being out of the labour force. As indicated in Table 7, 71% had returned to school, 11% cited family responsibilities and 6% indicated that health or disability prevented them from working.

Table 7
Reasons for Not Being In The Labour Force

Reason	#	%
Returned To School	51	71
Family Responsibilities	8	11
Health/Disability	4	6
Other Reasons	9	13
Total	72	100%

Training Program

Respondents were also asked to rate the overall quality of their specific training program. Table 8 indicates that survey respondents rated the training programs highly. 96% of respondents rated their program as good to excellent.

71% of employed respondents said they could not have obtained their job if they had not taken their training program.

Table 8
All Respondents:
Rating of Overall Program Quality According to Program Group

Program Group	Excellent %	Very Good %	Good %	Poor %	Very Poor %
Business	8	38	49	5	0
Health	11	43	43	2	1
Industrial	16	42	38	3	1
Service	15	36	44	4	1
Technology	11	40	44	4	1
Overall	12%	41%	43%	3%	1%

All respondents who had been employed at some time since graduation were asked to rate their training program according to how well it had prepared them for work. As indicated in Table 9, 62% of respondents indicated that their training program had trained them either well or very well for their job. Another 33% felt that their training program had prepared them adequately. Only 5% indicated their training had prepared them poorly for the job they had.

Among program groups, Service, at 65%, had the highest percentage of respondents who indicated that their program had prepared them well or very well for their job.

Table 9
Respondents Employed at Some Time Since Graduation: Rating of Training Program Job Preparedness

Program Group	Very Well %	Well %	Adequately %	Poorly %
Business	13	48	35	4
Health	19	44	32	5
Industrial	14	46	35	5
Service	24	41	29	4
Technology	21	42	33	4
Overall	17%	45%	33%	5%

Overall, as shown in Table 10, 85% (N=1,121) of respondents indicated that their training program had met their expectations. Within program groups, the highest satisfaction level was in the Health sector where 90% (N=337) of respondents said the program met their expectations.

Table 10
All Respondents: Satisfaction Regarding Program Expectations

Program Group	Program Met Expectations #	Program Met Expectations %	Total Respondents #
Business	227	81	279
Health	337	90	375
Industrial	307	85	361
Service	102	84	122
Technology	148	83	178
Overall	1,121	85%	1,315

Respondents were asked to indicate their major reason for taking their training program. 80% (N=1,061) said it was for employment in a field related to the training, 12% (N=159) indicated it was for a change of career and 5% (N=61) said it was taken in order to update their job skills. 3% (N=43) gave other reasons for taking the training (Table 11). 76 respondents did not answer this question.

Table 11
Reasons for Taking Training Program

Program Was Preparation For:	#	%
Employment in the Same Field as Training	1,061	80
Change of Career	159	12
Update of Job Skills	61	5
Other Reasons	43	3
Total	1,324	100%

As indicated in Table 12, 57% (N=755) of respondents moved to the city where their program was offered.

Table 12
All Respondents:
Geographic Accessibility to Program

Program Group	Moved To Program Location		Total Respondents
	#	%	#
Business	160	57	282
Health	206	55	377
Industrial	214	58	368
Service	69	56	124
Technology	106	59	180
Overall	755	57%	1,331

Further Training After Graduation

15% (N=205) of respondents had enroled in some type of further training at the time of the survey (see Table 13). Business program graduates at 25% (N=69) and Service program graduates also at 25% (N=31), had the highest enrolment in further training.

Table 13
Respondents Enroled in Further Training

Program Group	Enroled At Time Of Survey #	Enroled At Time Of Survey %	Total Respondents #
Business	69	25	280
Health	22	6	373
Industrial	62	17	370
Service	31	25	123
Technology	21	12	179
Overall	205	15%	1,325

Among those respondents enroled in further training, 27% (N=53) said they were at a more advanced level in the same area of specialization; 24% (N=47) were enroled in a university program; 14% (N=28) had selected a different SIAST program and 35% (N=68) were taking another post secondary program (Table 14). Nine of the 153 respondents who were enroled in a program at the time of the survey did not indicate a response to this question.

Table 14
Kinds of Training in Which Respondents Were Enroled

Type of Training	#	%
Further Training In The Same SIAST Program Field	53	27
University Program	47	24
A Different SIAST Program (any campus)	28	14
Other Post Secondary Programs	68	35
Total	196	100%

Demographics

Age

As indicated in Table 15, the average age of respondents was 25 years. The average age ranged from 24 to 26 within the different program groups.

Table 15
Average Age of Respondents

Program Group	All Respondents
Business	24
Health	26
Industrial	24
Service	25
Technology	25
Overall	25

Gender

Overall, 52% (N=721) of survey respondents were female and 48% (N=668) were male (see Table 16). However, there was a wide variation in the proportion of male and female respondents within program groups. For example, 94% of Industrial program respondents and 81% of Technology program respondents were male, while 91% of Health program respondents and 86% of Service program respondents were female.

Table 16
All Respondents: Program Group by Gender

Program Group	Males		Females		Total Respondents
	#	%	#	%	#

Technology	150	81	36	19	186
Overall	668	48%	721	52%	1,389

A comparison of the employment status of male and female respondents indicated some differences between the two (see Tables 17 and 18). Among male respondents, 75% (N=497) were employed, 20% (N=135) were unemployed and 5% (N=36) were not in the labour force. Female respondents indicated that 81% (N=584) were employed, 13% (N=96) were unemployed and 6% (N=41) were not in the labour force.

Within program groups, the highest rate of employment for male respondents was found in Health programs, while the highest rate of employment for female respondents was found in Technology programs.

Table 17
Male Respondents: Employed, Unemployed, or Not In The Labour Force By Program Group

Program Group	Employed		Unemployed		Not In The Labour Force		Total Male Respondents
	#	%	#	%	#	%	#

Salary

As indicated in Table 19, the average gross monthly salary for respondents employed full time in training related occupations was $1,763. The highest monthly salary, $2,623, was reported by male respondents in training related occupations in the Health field. The highest monthly salary reported by females was $2,095 for those in the Health field.

Table 19
Respondents Employed Full Time in Training Related Occupations: Average Gross Monthly Salary by Gender

Program Group	Male	Female	Overall
Business	$1,986	$1,599	$1,711
Health	$2,623	$2,095	$2,154
Industrial	$1,502	$1,173	$1,491
Service	$1,577	$1,506	$1,511
Technology	$2,021	$1,737	$1,954
Overall*	$1,756	$1,760	$1,763

*Note: These numbers represent the overall average salary of all male and female respondents employed in training related occupations.

Special Categories

As an optional question on the survey questionnaire, respondents were given the opportunity to indicate if they consider themselves to belong to either of the following two groups: persons of aboriginal ancestry or persons with a chronic disability. The results, in Table 20, show that of the 1,342 respondents who answered the question, 7% (N=90) said they were of aboriginal ancestry, while 1% (N=14) of the 1,364 respondents who answered identified themselves as having a chronic disability.

Table 20
All Respondents: Optional Identification of Special Categories

Identification	#	%
Person of Aboriginal Ancestry	90	7
Person with a Chronic Disability	14	1

Labour Market Data

As shown in Table 21, 86% (N=767) of respondents in training related occupations were working in Saskatchewan.

Appendix A:
1991 Graduate Employment Survey Questionnaire

Saskatchewan
Education

SIAST
SASKATCHEWAN INSTITUTE OF APPLIED SCIENCE AND TECHNOLOGY

1991 Graduate Employment Survey

Information from this survey of SIAST graduates is used to plan programs and assist those considering post-secondary education. Please take a few minutes to answer the questions which apply to your present situation. All responses to this survey are treated as confidential. Individual responses are not used.

Graduate Information

1. Please indicate the program from which you graduated:

____
Name of program   City

2. Did you move from another location to the city where your SIAST training was held? Yes ☐ No ☐

Employment Status

3. Please indicate your present employment status: (Please check **one only**.)

Employed ☐   Not employed ☐ ▸ *If not employed*, please skip to **Not Employed** section, page 2.

If employed, please briefly describe your **present job**:

____
Job title (e.g. Head Nurse, Motor Vehicle Mechanic, Clerk Typist)

____
Description of your employer (e.g. Hospital, General Contractor, Accountant)

____
Location of employment (i.e. nearest city/town or, if you are not working in Saskatchewan, the province)

$____________________.00
Monthly salary **before** deductions (for statistical purposes only)

4. Is your **present job** directly related to the education and training you received in your program, i.e., does your job use some or all of the skills acquired in your training program?

Yes ☐ No ☐

If no, why are you not in a training related job at present? (Please check **one only**.)

No longer interested in this field	☐ a	No jobs available	☐ c
Not qualified for related jobs	☐ b	Other	☐ d

Please turn to page 2.

5. Please check **one** of the following to indicate your present job status:
(Note: Part time means less than 30 hrs./wk.)
Full time ☐ Part time ☐ Self employed ☐

If you are not working full time, is this by choice?
Yes ☐ No ☐

If you are self employed, why are you self employed? (Please check **one only**.)

No other jobs available	☐ a
Wish to have my own business	☐ b
Can work and continue training	☐ c
Other	☐ d

6. Since completing your training, how long have you worked in your present job? __________ months.

7. Could you have obtained your job if you had not taken this training? Yes ☐ No ☐

Please skip to **Continuing Education** section.

Not Employed

Note: Answer this section only if you are **not employed at the present time**.

8. Have you worked at all at any time since completing your training program?
Yes ☐ No ☐

9. Are you scheduled to return to work in the next year, e.g., seasonal lay-off? Yes ☐ No ☐

10. Which of the following best describes your present situation? (Please check **one only**.)
Looking for work ☐ Not looking for work ☐

(Please continue at the top of the next column.)

If you are looking for work, what has prevented you from finding a job? (Please check **one only**.)

No jobs in desired location	☐ a
Employment is seasonal	☐ b
Not enough experience	☐ c
Require further training	☐ d
No jobs at all	☐ e
Other reasons	☐ f

If you are not looking for work, why is that? (Please check **one only**)

Returned to school	☐ a
Health/disability	☐ b
Family responsibilities	☐ c
Other reasons	☐ d

Appendix B:
Program Changes (1989-90 to 1990-91)

Outlined below are the differences between programs included in the 1989-90 and 1990-91 surveys:

Program:	**Change:**
Kelsey Campus	
Animal Health Technology	Students graduated in August, 1990. Therefore they were included in the 1990-91 survey rather than in the 1989-90 survey.
Professional Cooking	The previous name of this program was Commercial Cooking.
Palliser Campus	
Short Order Cooking	This program was not included in last year's survey due to the low number of graduates.
Professional Cooking	The previous name of this program was Commercial Cooking.
Industrial Instrumentation	This program was replaced by the Instrumentation Engineering Technology Diploma program.
Architectural Engineering Technology	These co-operative education programs did not appear in last year's survey due to class and work term rotations.
Civil Engineering Technology	
Water Resources Engineering	

Program:	**Change:**
Wascana Campus	
Office Education	The previous name of this program was Secretarial Studies.
Agricultural Mechanics	This program is no longer offered.
Painting and Decorating	This program is no longer offered.
Outdoor Power Equipment Technician	The previous name of this program was Recreation Vehicle Technician.
Agriculture Production	This program was not included in the 1991 Employment Statistics Report because there was only 1 graduate.
Swine Herd Technician	There were no graduates of this program for 1990-91.
Woodland Campus	
Professional Cook	The previous name of this program was Commercial Cooking.
Short Order Cook	This program was not included in the 1991 Employment Statistics Report because there was only 1 graduate.
Early Childhood Development Worker (Certificate)	The were no graduates of this program for 1990-91. Certificate program graduates usually go on to take the second year of this program.
Forestry Technician	This program was offered in 1989-90 as an on-campus extension program; it was not offered for 1990-91. Certificate program graduates may go on to take a second year in the Integrated Resource Management program.
